**GOVERNMENT GRANTS RECEIVED**

Article 35 of Decree Law no. 34/2019 ("Growth" Decree), converted by Law no. 58/2019, reformulated the rules on transparency of public funds contained in article 1, paragraphs 125-129 of Law no. 124/2017. The reformulation focused on the obligations of transparency for information related to subsidies, benefits, grants or aid, in cash or in kind, that are "not general in nature and unrelated to consideration, remuneration or compensation", effectively disbursed by public administrations, as well as by the parties set out under article 2-bis of Legislative Decree no. 33/2013.

In light of this reformulation, further clarifications on interpretation published with Assonime circular no. 32 of 23 December 2019 confirmed that the obligation of transparency refers to the granting of economic benefits arising from a bilateral agreement between a public party and a specific beneficiary. The sums received by the undertaking as consideration for a service provided or as remuneration for an appointment received or due for compensatory purposes are expressly excluded. The economic benefits received in application of a general regime are also excluded, such as tax benefits or grants accessible to all parties that meet certain conditions.

Considering the above, there were no cases of note involving the Group in financial year 2025.
